Automated Flexible Conveyors

- Flexible Conveyors
- Bulk Bag Unloaders
- Bag Dump Stations
- Drum Dumpers
- Bag Compactors
- Batch Weigh Stations

- Pneumatic Conveying
- Railcar & Truck Unloading
- Weighing & Batching
- Pneumatic Blending
- Dust Collection
- Bag Handling
- Sorb-N-Ject™ Mitigation
- System Integration & Control

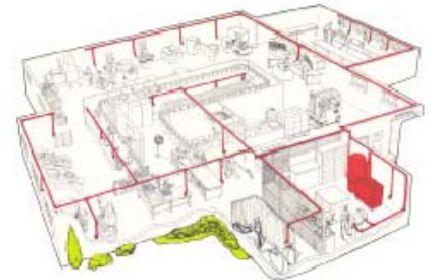

Vacuum-Conveyors and Transfer systems for powder, dust, pigments, granulated material, tablets and small pieces.

- Complete Powder Handling Systems
- Powder Loading & Unloading Stations
- Docking & Containment Solutions
- Weighing & Dosing

- Central Vacs
- Stationary Vacs
- Portable Vacs
- Powerlift Vacs
- HEPA Vacuums
- Accessories

Turnkey Central Vacuum Systems

- Baghouse Collectors
- Cartridge Collectors
- Cyclone Collectors
- Rotary Air Locks
- Explosion Vents
- Filters, Parts & Accessories

Vibrators and vibratory bulk handling equipment.

- Grid & Flat Top Tables
- Screeners
- Conveyors & Feeders

150 years of experience designing and manufacturing processing equipment.

- Mechanical Conveyors
- Mixing
- Screening
- Size Reduction
- Filtering

Precision Flow Measurement

Accurate metering of solid particles and air/gases:

- CentriFlow™ replaces weigh belts, impact meters, scales
- Frictionless, non impact, easily installed & maintained
- HBP® Air/Gas flow measurement-eliminates plugging
- Flow conditioning, minimizes pressure drop & turbulence
